Request for Proposal: Treasury Management System

Issued by: Example Regional Bank (fictional)
RFP number: ERB-2026-TMS-014
Response due: 15 January 2027

1. Introduction
Example Regional Bank is seeking a vendor to provide a cloud-based treasury management system for its commercial banking clients and its internal treasury team. This RFP describes our requirements. Vendors must respond to every requirement in Section 3.

2. Background
Example Regional Bank serves approximately 4,000 commercial clients across three states. Our current treasury platform is an on-premises system that is reaching end of support. We want to modernize cash visibility, payments, liquidity forecasting and risk management, while meeting our regulatory obligations.

3. Requirements

3.1 Company and experience
- Describe your company history, ownership and financial stability.
- Provide at least three references from banks of similar size.

3.2 Cash management and visibility
- The system must provide real-time cash positions across all client accounts and banks.
- The system must support automated bank statement reconciliation (BAI2 and ISO 20022 camt.053).
- Describe your approach to cash pooling and sweeping.

3.3 Payments
- The system must support ACH, wire, RTP and FedNow payments with configurable approval workflows.
- Describe your payment fraud detection and prevention capabilities.

3.4 Liquidity and forecasting
- The system must provide cash flow forecasting with at least a 13-week horizon.
- Describe how your forecasting uses historical data and machine learning.

3.5 Risk management
- The system must support foreign exchange and interest rate risk monitoring.
- Describe your counterparty risk and limit management features.

3.6 Security and compliance

- List your security certifications and audit reports (for example SOC 2 Type II, ISO 27001, PCI DSS).
- Describe how you support FFIEC, SOX and data residency requirements.
- Vendors must demonstrate encryption of data in transit and at rest, and multi-factor authentication.

3.7 Implementation and support

- Describe your implementation methodology and a typical timeline.
- Describe your support model, service levels and uptime commitment.

3.8 Pricing

- Provide your pricing model, including implementation fees and annual subscription costs.

4. Submission instructions

Responses must be submitted electronically as a single PDF. Questions about this RFP may be sent to the procurement contact listed in the cover letter until 15 December 2026.
